Profile

Skilled in separation of concerns, I write well-structured code with clear and concise comments. I'm proficient at performance optimization techniques, ensuring fast loading times and adherence to SEO best practices. Committed to accessibility, I build websites that comply with WCAG guidelines.

Experience

Jul 2024 - Oct 2024
Grumsen Development

Intern

- Focused on the front-end development of Captino.io, a SaaS platform for digital marketing.
- Responsiveness improvements, extending or adding new features, and bug fixes.
- Optimized data tables responsiveness and accessibility.
- Extended the export functionality for the Users and Tenants tables to include export to Excel.
- Created an extensive, reusable typography class system in Tailwind CSS, which formats any written content uniformly.

2023-2024
Marketing Puzzle

Intern

- Developed responsive websites utilizing HTML, CSS, JavaScript, and WordPress ensuring optimal user experience across various devices.
- Followed the most effective SEO practices to enhance website visibility in search engine results.
- Collaborated effectively with team members to translate ideas into tangible solutions and maintain seamless project execution.

Skills

Typescript
